

Inspector general HHS

Dr Francis Ochieng Otieno  
February 1st ,2021

Office of inspector general

330 Independence Avenue, SW  
Washington, DC 20201

Dear Inspector general

I am writing to you because I believe there is a coordinated effort to conceal medical fraud involving the Ohio State University Wexner Medical Center , Whetstone Care Center and the Medicaid office in Columbus Ohio. I was declared dead in 2013 and Whetstone Care Center kept me in a medically induced coma and falsified my medical records to enable fraudulent billing of Medicaid. I informed the Medicaid office in 2019 but no action has been taken to date. Since being discharged in 2019 , I have noticed two trends that are of concern to me. The first is that Medicaid is being billed ridiculously high prices when medical supplies are billed compared to when the services are paid for out of pocket. There seems to be an effort to use all available government funds before expiration. Secondly Medicaid appears to be paying more superior supplies in nursing homes. This is costing the government more money. My case demonstrates that it would be more efficient for the government to pay for care for seniors at home instead of nursing homes. Please note that I am unable to speak due to a medical procedure on my throat and email remains my only contact to the world.

Sincerely

Francis
